Profile

Computer Science graduate with 3 months of experience as a MERN Stack Trainee, skilled in HTML, CSS, JavaScript, React.js, Node.js, Express.js, and MongoDB. Familiar with frontend and backend development through projects and training. Seeking an entry-level MERN Stack Developer role to apply technical skills and grow in software development.

Internship

MERN Stack Developer Intern – Besant Technologies

01/2026 – 04/2026

Learned frontend and backend application development as a MERN Stack Developer Intern at Besant Technologies, and developed mini projects like To-Do List and Student Data Management applications to gain hands-on experience in full stack development.

Tambaram-Chennai

Node.js Backend Development Intern – Wiz Inoa

06/2025 – 07/2025

Learned backend development using Node.js, Express.js, and MongoDB during the internship at Wiz Inoa, including authentication, CRUD operations, API testing with Postman, and file upload functionality using Multer.

Kochadai-Madurai

Projects

RAG-ChatBot AI (Node.js & React.js)

- Developed a frontend application with file upload and chat function to interact with uploaded documents.
- Built backend features to extract content from files and store it in text format for processing user queries.
- Implemented a Retrieval-Augmented Generation (RAG) workflow to provide responses based on uploaded document data.

Movie Booking Web App (React.js)

- Built a multi-page movie booking application using React with smooth routing and navigation.
- Designed & implemented interactive UI elements such as image sliders and dynamic movie card components.
- Structured the frontend using reusable components for better maintainability and scalability.

User Management System (Node.js & MongoDB)

- Built RESTful APIs using Node.js and Express.js to perform CRUD operations for user management.
- Implemented secure authentication using JWT and bcrypt for login and password protection.
- Integrated MongoDB with Mongoose and followed MVC architecture for organized and scalable backend development.

Skills

- Frontend : HTML, CSS, JavaScript, React.js
- Backend : Node.js, Express.js
- Databases: MongoDB, MySQL
- Tools : Postman, VS code

Education

Bachelor of Engineering in Computer Science,

Fatima Michael College of Engineering and Technology, Madurai

2022 – 2026

CGPA - 8.3/10.0

Higher Secondary Course - Computer Science,

Holy Cross Girls' Higher Secondary School, Thiruchirappalli

2021 – 2022

Percentage- 87%
