

KAMALI SRI M

Full Stack Developer(MERN)

 mkamalisri18@gmail.com  8248418536  Chennai  Kamali sri M  kamali1804

Profile Summary

Motivated MERN Stack Developer skilled in **MongoDB, Express.js, React.js, and Node.js** with experience in full-stack development, REST API integration, and responsive UI design. Eager to apply technical and problem-solving skills in a dynamic environment.

Projects

Trendsetter's-E-commerce website,

Full-Stack MERN Application with Authentication and Cart Features

- Developed a full-stack e-commerce web application using **MongoDB, Express.js, React.js, and Node.js** with complete user authentication (login/signup)
- Implemented core functionalities including cart management, wishlist system, and payment workflow to enhance user experience
- Built secure and scalable **RESTful APIs** using **Node.js** and **Express**, integrating **JWT-based authentication** for protected routes
- Designed a responsive and user-friendly interface using **React.js** and **Tailwind CSS** with efficient state management and component reuse

Academic Management System-Student & Course,

Backend-Driven Application with CRUD Operations and API Integration

- Developed a robust backend system for managing student and course data using **Node.js, Express.js, and MongoDB**
- Implemented **RESTful CRUD** operations to efficiently handle data creation, retrieval, updating, and deletion for multiple entities
- Designed and structured database schemas using **Mongoose**, including relationships and data population for optimized queries
- Integrated frontend interfaces with backend APIs to enable seamless data flow and real-time interaction between client and server

Movie Booking Web Application-like netflix,

Responsive Frontend Application using React.js and React Bootstrap

- Built a responsive movie booking interface using **React.js** and **React Bootstrap** with a modular and component-based architecture
- Implemented dynamic rendering of movie listings and detailed views using **state management and props** for efficient UI updates
- Designed reusable and scalable UI components to display movie details such as **title, genre, ratings**, and show timings
- Enhanced user experience by creating an interactive and visually appealing interface with optimized layout and responsive design

Todo List Application-Task Management,

Responsive Todo Application with CRUD Operations and React Hooks

- Built a task management application using **React.js** with component-based architecture and state-driven UI updates
- Implemented **CRUD** operations for tasks with real-time updates using **React hooks** and efficient event handling
- Designed reusable and scalable components to enhance maintainability and code reusability
- Improved user experience with responsive design and interactive UI elements

Skills

- Core Programming: Python , Java (Basics), C, C++.
- Backend: Node.js, Express.js
- Frontend: HTML5, CSS3, JavaScript, React.js, Bootstrap, Tailwind CSS
- Databases: MySQL, OracleSQL, MongoDB
- Tools: Git, GitHub, Postman, VS code
- Other: REST API, JWT Authentication, MVC Architecture

Education

Bachelor of Engineering in Computer Science,

2022 – 2026

Fatima Micheal College of Engineering and Technology

Madurai

CGPA-7.9/10

Higher secondary Education, Govt Higher Secondary school

2020 – 2022

Percentage-77%

Theni

Internship

MERN STACK Development Intern - Wiz Iona

- Built and deployed full-stack web applications using **MongoDB, Express.js, React.js, and Node.js** (MERN stack), implementing scalable RESTful APIs.
- Developed secure user authentication and authorization using **JWT**, and performed **CRUD** operations with efficient database handling in MongoDB.
- Designed responsive and user-friendly interfaces using **React.js, HTML, CSS, and JavaScript**, while improving performance and debugging issues.

Certificates

- Python Programming- NPTEL (Infosys)
- Programming in Java- NPTEL (IIT Kharagpur)
- MERN Stack Development-(Wiz Inoa, Madurai)
